FATE DICE: INFERNAL DICE

Four layered dice in an opaque dark cherry on the outsides, brightening to an infernal red in the middle, inked in white.

Add color and excitement to your Fate and Fudge dice with Fate Dice™! Fate Dice™ are a premium line of Fudge Dice. This package contains a set of four 16mm Fudge Dice. We've gotten right down to the details and rethought everything about Fudge Dice. We've made the symbols larger and wider, so they're easier to read. We've given the symbols more personality than before, with rounded, flared ends and a gentle curve expressed throughout the stroke. We're using materials and color combinations that have never been on the market for Fudge Dice.

For sale in game stores everywhere, we've designed the packaging to stand upright on its own, lay flat, or hang from a hook for an ideal range of display options.

When it comes right down to it, these are dice that you can display proudly alongside all the other fancy dice in your collection (we know you have one) giving your Fate and Fudge games an extra dose of style. Top to bottom, these are Fudge Dice reimagined—Fate Dice™!
