### The Ten-Second Pitch

Retired adventurers start up a cozy tavern in this chill set of GM-less mini-games.

### Target Market

- Fans of media like *Animal Crossing*, *Legends & Lattes*, *Restaurant to Another World*, and *Harvest Moon*.
- Fans of fantasy tavern/restaurant management sims like *Traveller's Rest*, *Little Dragon Cafe*, or *Magical Delicacy*
- Gamers who prefer lightweight rules or GM-less games.
- Fans interested in casually exploring slice-of-life scenes about life in a fantasy town
- Gamers who enjoy cooperative world-building and storytelling.
- Folks who like chill times & cozy vibes.

### Up-Sells & Cross-Sells

- For fans favoring character building over system mastery, *Improv For Gamers 2E* [EHP0058]
- *Ryuutama: Natural Fantasy Roleplay* where the "NPCs" of the village set off on wonderful adventures.
- In *Golden Sky Stories* magical animals solve an enchanted town's problems w/ingenuity, cooperation, & friendship.
- *Yazeba's Bed & Breakfast*

### Selling Points

- Lightweight rules and prompt-driven play make Stewpot easy to pick up.
- *Stewpot* is divided into a series of 20 different mini-games. Play a few or play them all.
- Mini-games use everyday gaming bits: a d6, a deck of cards, a coin.
- No game-master, no preparation needed. Open the book and start playing together.
- Ideal for a casual one-shot session or a longer series where you seek to upgrade your tavern's Cuisine, Atmosphere, and Service.
- Import your characters from a different system to play out their transition from epic adventurers to wise proprietors pulling draughts at the bar. What happens when your adventuring career is over?
- Evocative scenarios and prompts inspire players to explore their tavern, their town, and the way their characters change in this new life.
- Includes four original recipes you can actually cook!

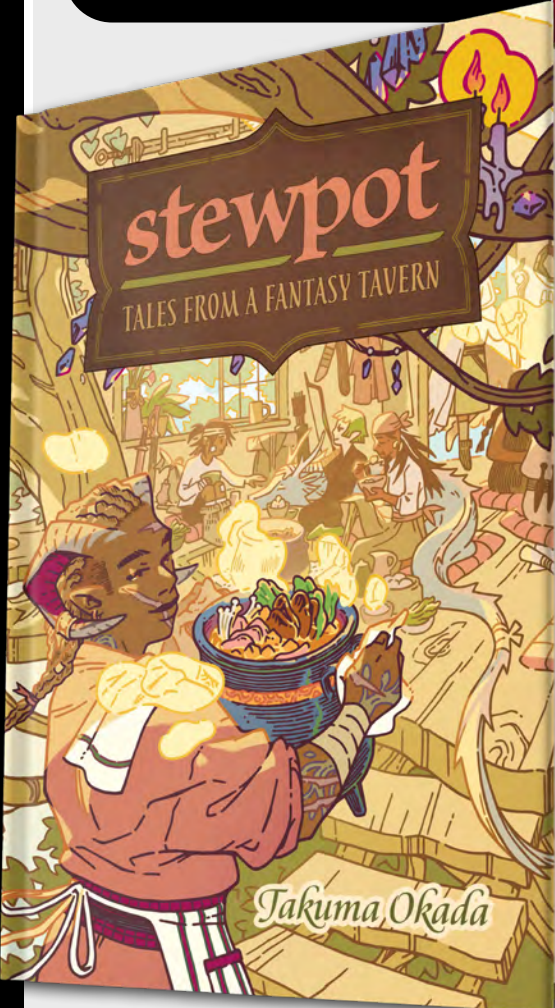

### A Cozy, Story-Based RPG That Begins Where Most Games End

*The adventurer's life is tough. It's time to call it quits. For years you wandered through hostile lands, seeking gold and glory. Now it's time to hang up your axe, kick off your boots, and settle down. If only it were that easy...*

*Stewpot: Tales from a Fantasy Tavern* by Takuma Okada is a collection of cozy mini-games that tell the story of a tavern run by former adventurers. Gather your dice, pick up a deck of cards, set aside a shiny coin, and get ready for a new set of challenges. Only this time... your adventures start *behind* the bar.

*Stewpot* is divided into a series of slice-of-life scenes, with a different set of simple rules and prompts helping adjudicate each scene. Scramble to cook for a visiting dignitary, smelt down an old magic item, break up a tavern brawl, and more! All the while, you'll work to upgrade your tavern's cuisine, atmosphere, and service. In the process, you might just learn a little bit about yourself—and your fellow party members.

Whether you're looking to play a chill pick-up session, or provide a campaign epilogue to your heroes' epic adventures, *Stewpot: Tales from a Fantasy Tavern* will serve you well.
